Lesson Guide

In-depth notes for Building your live field kit workflow - study, annotate, and revisit before client meetings.

Toolkit setup

A resource kit only has value when you can use it quickly under client pressure. Create folders for leads, listings, buyers, tenants, landlords, compliance, marketing, and performance. Keep blank templates separate from completed client files.

Naming standard

Use clear names that include date, client or property reference, document type, and status. Example: 2026-07-26-Ms-Moyo-buyer-needs-analysis-draft. Consistent naming reduces lost documents and handover confusion.

Weekly review

Every Friday, check open files against the File Checklist and update next actions. This creates a professional operating rhythm that supports HouseLink admins, clients, and your own pipeline.
