Lesson Guide

In-depth notes for Title deed, cession and estate risk flags - study, annotate, and revisit before client meetings.

Agent awareness

Agents often encounter title deeds, cession arrangements, deceased estates, company-owned property, family disputes, and missing document chains. You are not expected to solve legal issues, but you must recognise when a file is not ordinary.

Risk flags

Escalate when names do not match, the person instructing is not the owner, an estate executor or company resolution is mentioned, original documents are unavailable, boundaries or rates are disputed, or clients resist written records.

File note practice

For each risk flag, write a short file note: what you observed, what you requested, who you escalated to, and what action is paused until clearance is received.
