Lesson Guide

In-depth notes for Buyer and tenant qualification simulation - study, annotate, and revisit before client meetings.

The problem

Many enquiries begin with incomplete information: 'I need a house in Harare' or 'Do you have rentals?' A professional agent turns that into a qualified brief before arranging viewings.

Qualification script

Confirm budget, preferred suburbs, timing, decision makers, finance or payment readiness, must-haves, deal-breakers, and communication preference. For tenants, ask about move-in date, employer or income evidence, occupants, pets, and lease term.

Simulation output

Complete one buyer needs analysis and one tenant needs analysis from practice conversations. Write the shortlist criteria you would use and which enquiries you would decline or park for later.
